

Survey results

Be a climate hero

The directorate of education of Turkey had conducted a survey to 20 schools around about the climate change to define how much the students are aware of the disadvantages of climate change. They conducted it to the primary schools in their district.

They not only had a survey about climate change but also about the skills which students should improve.

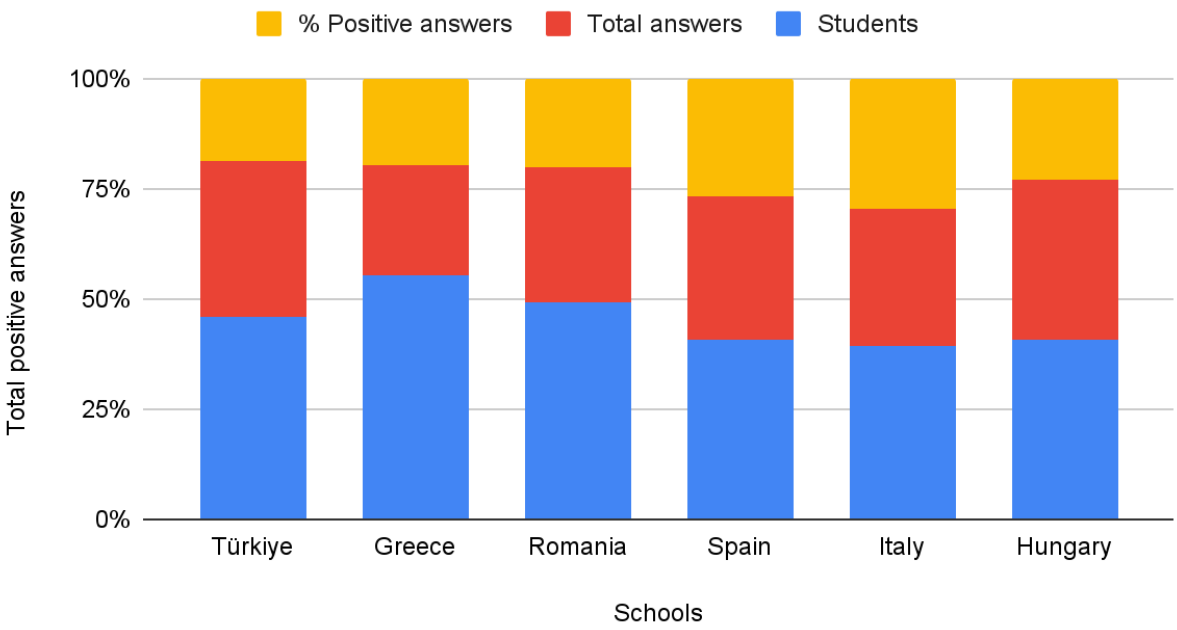

The names of the schools have been changed for numbers due to privacy.

Country	Students	Total answers
Türkiye	232	181
Greece	580	263
Romania	453	279
Spain	568	456
Italy	352	279
Hungary	370	329
